

Arthroscopic knee debridement

An outpatient knee “cleanup” surgery package for when reconstruction is not required.

About The Procedure

The cartilage and meniscus are the cushions in the knee and can be injured by trauma or repetitive use. If this is associated with unrelenting pain, weakness, instability or dysfunction, surgery may be indicated. In most cases, surgical repair or relief of pain can be accomplished with minimally invasive arthroscopic surgery.

When considering an arthroscopic knee procedure –it is important to know that the surgeon who will carry out your surgery has the experience and focus to deliver the quality you want. It is also important to know what you are paying for.

Allevion offers a comprehensive arthroscopic knee surgery package that takes into account the experience and focus of the surgeon. Our surgeons are superbly trained. All specialize in arthroscopic knee surgery and have done thousands of procedures. They are absolutely committed to service.

Every Package Includes:

Your surgery package includes:

- Your surgeon
- Anesthesiologist
- Operating room
- Technical staff
- Recovery room
- Ambulatory facility stay
- One pre-operative consultation
- One series knee x-rays
