

# Penile Implant Surgery Package

*an outpatient service with a clear cost, complications protection, and your choice of inflatable or malleable penile prosthesis.*

## About The Procedure

Erectile function can decline as men age. It can also decline as a result of illness, such as heart disease, diabetes, prostate cancer surgery, such as radical prostatectomy, and other causes. In many cases, your doctor may recommend medications, such as Viagra or Cialis, injections, vacuum erection devices, and other approaches. In some cases, these conservative approaches do not restore erections and surgical implantation of a penile prosthesis is the right treatment.

When considering placement of a penile implant, it is important to know that the surgeon who will carry out your surgery has the experience and focus to deliver the quality you want. It is also important to know the cost and what you are paying for.

Allevion offers a comprehensive penile implant surgical bundle that offers a choice of inflatable or malleable penile prosthesis. It takes into account the experience and focus of the surgeon for faster recovery and fewer complications. Our surgeons are superbly trained, highly qualified, and hand picked. All specialize in penile implant surgery and are absolutely committed to service.

## Your Penile Implant Surgery Package Financial Protection

Your penile implant surgery package includes a third-party product that protects you financially by paying bills you may receive from facilities, surgeons, and others in the event of complications that may occur during surgery and after surgery and your recovery. It allows the surgeon to provide care for certain covered complications at no additional cost to you. The insured under this third-party product is the surgeon.

### **What you should do if you have a complication**

If you have a complication after your penile implant surgery, you should immediately address it with your surgeon. If you do not consult your surgeon before seeking care, your protection may not apply.

### **Which complications are covered**

The protection covers complications determined by your surgeon to be directly related to your penile implant surgery, including cardiopulmonary events, infections, and problems with the prosthesis.

### **Limits to the protection**

Your complications protection covers up to \$25,000 of bills for a period of 12 months after surgery.
