

One-Level Lumbar Microdiscectomy

an outpatient procedure to relieve pain

About The Procedure

Many people suffer from pain, weakness, numbness, and tingling due to herniation of a lumbar spine disc. In appropriately selected cases, these signs and symptoms may be relieved with surgery to remove the disc fragment compressing the nerves.

When considering lumbar spine surgery, it is important to choose the right surgeon. Do you know that the surgeon who will carry out your surgery has the experience and focus to deliver the quality you want? Will your surgeon take the time to know your goals and help to set realistic expectations?

Surgeo offers a comprehensive surgery package that features spine surgery specialists. Each is superbly trained and has years of experience. All are driven by quality and desire to serve.

Our quality-driven package is designed to increase the likelihood of terrific outcomes.

Your Package Includes:

Your outpatient lumbar discectomy package includes surgery for one vertebral level and:

- Your surgeon and assistant
- One pre-operative consultation
- Two post-operative visits
- Anesthesiologist
